As an experienced software developer I enjoy creating useful solutions for my clients, I seek to obtain a position where my knowledge in computer science and problem-solving skills are being used to their maximum, constantly being tested and improved upon.

PROFESSIONAL EXPERIENCE

Software Developer
Bert's Auto Parts Ltd.
Sep 2016- Present

Designed and implemented a Zone Put Away, Zone Picking, and Stock Verification solution for the company's existing P.O.S. and Inventory Management System using Visual Basic Windows Forms and Microsoft SQL Server. Benefits derived from these new features include: faster picking times, reduced customer wait time, quantification of employee performance for more accurate evaluations and the operations are now paperless.

Software Developer Intern
Bert's Auto Parts Ltd.
Sep 2015- Sep 2016

Developed and deployed an internal web application that performs C.R.U.D. operations on Special Order data using ASP.Net, C#, and Microsoft SQL Server. In addition to making this process paperless the solution allowed for the centralization of special orders, the emailing of requests for price quotations and order confirmations to a specified agent using the SMTP Client library.

Software Developer Intern
Trade Winds Citrus Limited.
Oct 2013- Jun 2014

Developed an Android mobile app that uses GPS to track and display the user's current position relative to the different locations where Trade Winds Citrus products can be found. Other technologies used included MySQL, REST, JSON, and the Symfony2 PHP framework which was used for creating the web service.

EDUCATION

Bachelor of Science in Computing, major - Computer Science
University of Technology Jamaica
Aug 2011 - May 2015
Graduated with First Class Honors - GPA 3.48

CERTIFICATION

UI Test Automation
QualityWorks Consulting Group, AutomationCamp 2022
